

Sizewell C Notice to Mariners No 3 of 2024

Water Sampling Operations

NOTICE IS HEREBY GIVEN That water sampling collection is planned to take place from Monday 20th April.

Water Sampling Collection

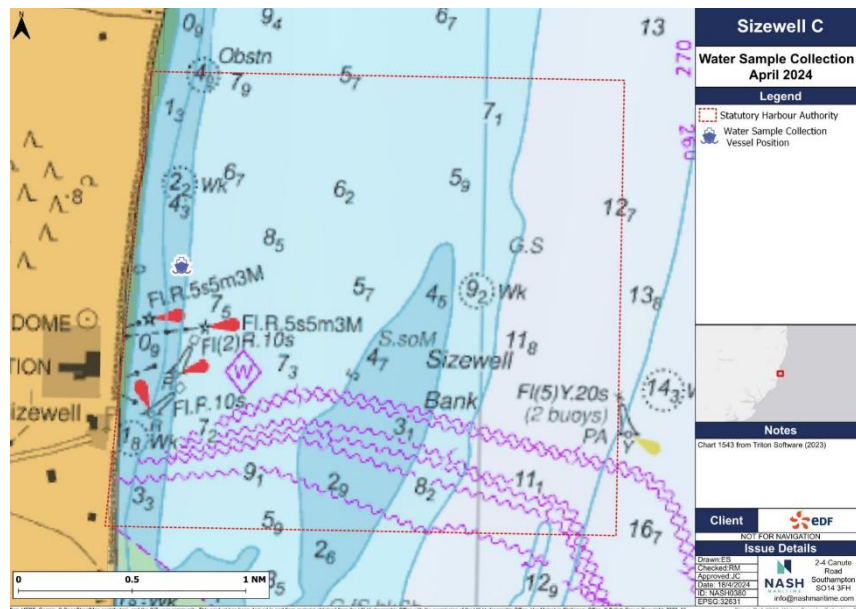

Water samples will be collected by a carried out from a 14m, blue hulled survey vessel called 'WM Proteus' from Monday 22nd April for approximately 7 days.

The water sample collections will involve lowering a weighted container to varying depths and then recovering the sample with the aid of a davit. The vessel will anchor during sample collections.

Other vessels should maintain an appropriate and safe distance when passing the vessel whilst undertaking sample collections and should pass at the lowest speed to avoid vessel wash effects. A continuous listening watch will be conducted on VHF Channel 16.

This chart shows the planned UXO survey area where operations will be undertaken
